

AEROSPACE WIRE

Carbon Steel • Bronze • Stainless • Nickel • Brass • Copper • Monel • Inconel • Titanium

Malin Company has been manufacturing and supplying quality lock wire to the aerospace industry for decades. Malin was first to market a reusable plastic canister with a removable lid and handy belt clip. Malin lock wire has been used for years to prevent fasteners from loosening or falling out due to vibration or where temperature is an issue.

Common applications include:

- Avionics
- Electronics
- Navigation
- Aircraft Maintenance
- Tag Wire
- Space Exploration Equipment
- Precision-Guided Munition Systems

MATERIALS

- Stainless Steel
- 302,304,316,321,347
- Inconel 600
- Monel 400
- Oxidized Inconel
- Copper Cadmium
- Copper
- Brass
- Aluminum

Other materials available. Materials may be subject to minimum buys.

DIAMETERS

- .010 – .125

STANDARD SIZES

- .020
- .025
- .032
- .041
- .051

All materials conform to ASTM, MS and AN specifications. Certification of conformance, DFAR compliant and USA made material available.
