

CUSTOM BRUSHES

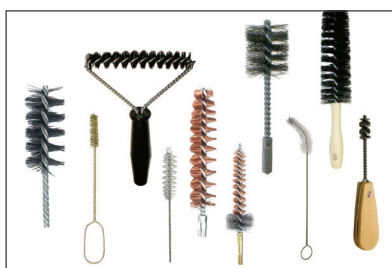

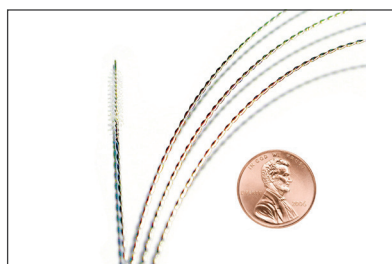

Aluminum • Stainless Steel • Nickel • Silver • Brass • Copper • Carbon Steel

Brushes Corp proudly specializes in the manufacturing and engineering of twisted-in-wire brushes for use in a multitude of industries and applications. To design a brush that meets specific requirements, Brushes Corp. asks a series of quality and purpose-based questions. From the stem and design to the fill material, the length of the brush to the diameter of the bristles, each style of brush is built to meet unique customer specifications. Additional factors to consider in the design, production, and delivery of a high quality brush include: stiffness, chemical or corrosion resistance, and flexibility.

Common types of brushes include:

- Acid
- Automotive/Engine
- Bottle
- Condenser
- Copper Tube Fitting
- Double Spiral Tube
- Gun and Riffle
- Industrial Tube Cleaning
- Medical
- Miniature
